Department of Health Care Services Children's Medical Services Network (CMS Net) - Information Bulletin #408

October 25, 2012 CMS Net Update

The following updates were implemented October 25, 2012 in Production CMS Net:

Web:

Case Notes

- Restored the default sort order for Case Notes to ascending order by create date. This is the sort order prior to October 20, 2012 release.
- Corrected issue where draft case notes generated through Legacy narratives could not be deleted due to error: This narrative is not a draft and must be flagged as error by a state administrator
- When transferring a case note from one case to another, the target case will no longer display the case note as flagged for error

Reports

- SAR Daily Activity Reports
 - Print Authorization button: the "Service Begin Date" and "Service End Date" fields will use the SAR status date (date the SAR was last updated).
 - Run Report button: the "Service Begin Date" and "Service End Date" fields will continue to use the service begin and end date on the SAR.
 - All counties will now be able to run this report.
 - Multiple provider types will be allowed.

Batch Correspondence

- Corrected the program error when Printing a Correspondence Batch

PEDI

- Update the PEDI Password expiration message

Legacy:

Statewide Client Index/Registration

- Birthplace field to allow selections of "Other United States" and "Unknown"
